

ECHO ROBOTIC MOWER

WHAT'S MISSING FROM THIS PICTURE?

In a word, *you*. And that's a good thing. It means you're somewhere else, dealing with issues that actually require a sports-turf manager's attention. The question is, how are you pulling off this disappearing act?

Flip the page to zoom in on an answer you might be overlooking...

THE ECHO ROBOTICS TM-2000 TURF MOWER

When the self-driving, self-charging, totally self-sufficient TM-2000 is on the job, it's not just you who's absent. Also gone are worries about finding quality labor—and a host of other headaches. In their place is the ability to save precious time, money and resources at every site, even when you're *off* site.

- Mows rain or shine, day or night—around *your* schedule for watering, games, maintenance, etc.
- Finely mulches clippings to promote turf health
- Advanced automation, guidance and safety features
- Remotely command and monitor the mower's performance
- Emissions free operation
- 8x lower energy costs*

* compared to traditional mowers
